Abracardabra

Abracardabra is a poker-style slot game with fruit symbols on playing cards.

On starting a game, five cards are shown and the player may “HOLD” one or more cards. Pressing the “DRAW” button removes any cards that are not held, and deals cards until five cards are shown.

Wins are awarded when 3, 4 or 5 of the same cards are displayed.

The theoretical average return to player (RTP) is 95.95% based on optimal strategy, or 90.21% when using Auto Hold.

Abracardabra Bonus

When 3 or more BONUS cards are displayed, the Abracardabra Bonus is triggered.

Three BONUS card symbols will pay all bonus winnings X1.

Four BONUS card symbols will pay all bonus winnings X2.

Five BONUS card symbols will pay all bonus winnings X10.

The card table is then cleared, and 17 cards are dealt, filling the top 5 card positions and the following 12 smaller card positions underneath.

Wins are paid, and cards included in a win are then removed. The cards then shuffle, to remove any space between cards. New cards are then dealt until the "Cards Remaining" counter is at zero, paying wins as before. When no further wins are present, the bonus game will finish.

If 3 BONUS cards are shown during the bonus game, you are awarded a multiplier increase of X1, and then an extra X1 for every additional BONUS card visible. Multipliers apply only to wins obtained after the BONUS cards are removed.

Magic Hat

At random, a Magician's Hat is shown, and new cards appear from the hat. These cards replace other cards and may make a winning combination.

The Magic Hat bonus is not available during the Abracardabra Bonus.
