

## Thunder Cash™ - Voodoo Magic™

### GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

#### Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

#### Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$
- The maximum bet per round is \$
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.
- A player cannot influence the result of a game by stopping the reel spins.

#### Win Lines

- The game has 5 reels and 243 winning ways.

#### Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- The leftmost reel is reel 1, the rightmost reel is reel 5.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except Scatters.
- Highest win is only paid per combination on screen.
- Line wins are added.
- "Major/Minor/Mini Jackpot" Coin symbols are different representations of the Coin symbol and substitute for it.
- All combinations start on the leftmost reel, except Scatters.
- All combinations are on adjacent reels, except Scatters.

#### Bonus Symbols

- 6 or more Coin symbols appearing anywhere on the reels trigger the Lock & Spin Feature.
- The Wild symbol substitutes for all symbols except for Scatter symbols to help complete winning combinations.
- Wild symbols may only appear on reels 2, 3 and 4.

#### RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

#### Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.  
 Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

## GAME FEATURES

### Lock & Spin Feature

- 6 or more Coin symbols appearing anywhere on the reels trigger the Lock & Spin Feature.
- The Lock & Spin Feature starts with 3 Free Spins.
- Free Spins are played using the same bet as the spin which triggered them.
- The Free Spins counter is reset back to 3 with each new Coin symbol appearing anywhere on the reels.
- All Coin symbols are locked in place until the end of the feature.
- Any numeric value on a Coin symbol will be paid out at the end of the Lock & Spin Feature.
- "Major/Minor/Mini Jackpot" Coin symbols appearing anywhere on the reels in the Lock & Spin Feature trigger the corresponding jackpot payout (at the end of the Lock & Spin Feature).
- 15 Coins appearing on the reels during the Lock & Spin Feature trigger the Grand Jackpot and end the feature immediately.

### Jackpots

- 0.95% of every stake goes directly into the jackpots.
- The amount you are eligible to win will be shown in the jackpot bank.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players will win the reseeded jackpot, plus any new contributions.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- The jackpots are initially seeded at \$ 2 500.00 / \$ 15 000.00 (or the equivalent in your account currency if different). When a jackpot is won, it is reset to the seed value.
- There is no ceiling value for the jackpots.
- The probability of a game outcome might be different than its graphical representation.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

- For higher wins gambling is not possible.
- Gambling is not possible after a jackpot win.
