Match 2, 3, 4 or 5 symbols across a valid win line to achieve a win

WINNING LINES

All games are played with 10 win lines.
 Wins can occur across any or all of the win lines.
 Only the highest award is paid per winning combination.
 Wins on different played lines are added.
 All wins pay left to right across adjacent reels, except Bonus, starting from the leftmost reel.
 Wins on different win lines are accumulated.

WILD SYMBOLS

Wilds substitute for all symbols except the bonus symbol:

Robber symbols are wild and appear in the base game, Fortune Spins and Big Money Bonus.

Cop symbols are wild and only appear in the Big Money Bonus.

MIXED PAYS

The present symbols are mixed pays.

They will award line wins landing in any combination as

5x = 20x Stake
4x = 5x Stake
3x = 1x Stake

BONUS SYMBOL

The bonus symbol is available on all reels in the base game.

3 or more bonus symbols landing anywhere in view will trigger the bonus.

3 in any position awards Big Money Bonus with a 1x starting multiplier.
4 in any position awards Super Big Money Bonus with a 2x starting multiplier.
5 in any position awards Mega Big Money Bonus with a 3x starting multiplier.

BIG MONEY BONUS

A progressive trail will appear above the reels. The available multipliers that can be obtained via the trail are 2x, 3x, 4x, 6x, 8x and 10x.

The first multiplier on the trail is 2x. This is located at position 6 on the trail, with each additional multiplier increasing every 3 positions until reaching 10x.

The maximum multiplier that can be obtained via the trail is 10x. Upon reaching a multiplier on the trail, all subsequent presents collected by the robber will be multiplied.

Robber symbols add to the trail and act as a cash collector. The present values will be collected for each robber symbol that lands on the reels.

Cop symbols progress the cop along the trail.

If multiple cop or robber symbols land in view, each will progress one position on the trail for each symbol that lands on the reels.

Cop and robber symbols act as wilds.

The feature ends when the cop catches the robber and is identified during the ID Parade.

The values on the presents can be 1x, 2x, 5x, 10x, 25x, 50x, or 100x the active stake.

ID PARADE

When the robber is caught during the Big Money Bonus they will be taken to the ID Parade.

3 characters will appear and a short dapple will take place, randomly highlighting each character before stopping on one and awarding one of the following outcomes.

Bert - Bonus terminates awarding any accumulated winnings.

Sid - The cop is pushed back 2 positions and the bonus continues.

Vic - The robber runs ahead to the next multiplier in the trail and the bonus continues.

FORTUNE SPINS

As an alternative to spinning the normal reels, a different base game can be chosen. This can be played by switching 'on' the Fortune Spins feature via the switch presented on the graphic.

All symbols will be removed from the reels with exception to the presents, bonus symbols and the robber.

The robber will be unlocked, acting as a wild and cash collector.

If the robber and a present appear on the reels at the same time, the present value will be collected.

The present values will be collected for each robber symbol that lands on the reels.

Fortune Spins can be played at any stake.

The values on the presents can be 1x, 2x, 5x, 10x, 25x, 50x, or 100x the active stake.

GAMBLE

The gamble can be configured to be on, on if the win is greater than or equal to 5x stake, or off.

If the gamble is on, any winnings awarded during the game will offer the gamble feature.

If the gamble is on and if the win is greater than or equal to 5x stake, any winnings greater than or equal to 5x stake awarded during the game will offer the gamble feature.

When the gamble is entered, two wheels are presented. The left wheel offers the chance to increase the winnings by one third, double the winnings, or triple the winnings.

The right wheel offers the chance to gamble for the Big Money Bonus, Super Big Money Bonus or Mega Big Money Bonus. The win value can be adjusted by pressing the '-' and '+' arrows, this in turn will adjust the winning and losing segments of the wheel.

Press either wheel during the feature to gamble your winnings and spin the pointer.

If the pointer stops on the green segment, the cash value or Free Spins are awarded.

If the pointer stops on the red segment, the player loses their winnings and exits to the base game.

When the potential winning area of the gamble wheel is at its minimum size the chance of success could be significantly less than the visual representation shown.

Winnings can be gambled up to a maximum win amount of x2500 stake or [redacted] whichever is the lower value. Once the maximum win amount is reached, winnings are automatically collected and the gamble will be exited.

The maximum that can be achieved via the Free Spins gamble is the Mega Big Money Bonus. Once this is reached, the Big Money Bonus wheel is disabled, while the player is still able to gamble on the Cash wheel.

Press the 'COLLECT' button during the feature to collect your winnings.

The expected payback for the gamble game is 100%

SPIN CHANCE

Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.

Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional base game spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.

Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet.

The chance of winning a spin is determined by this ratio.

BONUS BUY

Bonus Buy allows the player to purchase direct entry into the Big Money Bonus.

Purchasing the feature immediately starts a game that guarantees at least 3 scatter symbols to land in view.

Bonus Buy is purchased for 100x the current stake.
Feature awards are determined by the current stake.

The average payback over multiple game cycles in the Bonus Buy mode is 94.99%.
