Line Wins

Lucky Golden Toad features a unique pay method. If a number symbol greater than 0 appears in the middle position on 1 or more active reels, a win is awarded. The full symbol must be visible, and the middle of the symbol must be in the middle position. The total value of the win is the value of the numbers on the active reels, read as a single value from left to right, ignoring blanks, multiplied by the coin value.

Example of a payout:

At a coin value of 1.00, if 1 appears on reel 1, 8 appears on reel 2, and 0 appears on reel 3, the player will be awarded 180 coins.

The actual amount won in currency is based on the coin value.

Respin Feature

When playing with reels 1 and 2 active, if a blank appears in the active position on reel 1 and a 0 Symbol or an 8 Symbol appears in the active position on reel 2, a respin is triggered. Reels 2 and 3 lock and reel 1 automatically respins once.

When playing with all 3 reels active:

- If a blank appears in the active position on reels 1 and 3 and a 0 Symbol appears in the active position on reel 2, a respin is triggered. Reel 2 locks and reels 1 and 3 automatically respin once.

After the respin, if a blank appears in the active position on reel 1 and a 00 Symbol appears in the active position on reel 3, reels 2 and 3 lock and reel 1 automatically respins once.

- If a blank appears in the active position on reels 1 and 2 and a 00 Symbol appears in the active position on reel 3, a respin is triggered. Reel 3 locks and reels 1 and 2 automatically respin once.

After the respin, if a blank appears in the active position on reel 1 and a 0 Symbol appears in the active position on reel 2, reels 2 and 3 lock and reel 1 automatically respins once.

- If a number symbol appears in the active position on reel 1 and blanks appear in the active position on reels 2 and 3, a respin may be randomly triggered. If the respin is triggered, reel 1 locks and reels 2 and 3 automatically respin once.

Wins are evaluated after all awarded respins are complete.
