

Da Vinci Diamonds

Take a trip back to the glory of the Renaissance in Da Vinci Diamonds! With the extremely popular Tumbling Reels feature, symbols fall from the top of the screen instead of spinning on the reels. Winning symbol combinations disappear and new symbols tumble down to replace the vanished symbols. You can win again and again on a single spin of the game!

Trigger the Free Spins Bonus when three Bonus symbols appear on a payline and earn 6 free spins. With richer reels than the base game and additional scatter pay symbols, the bonus can lead to some lucrative awards.

Play Da Vinci Diamonds and maybe you too can enjoy the wealth and splendor of a Medici!

Auto Spin is only available in approved jurisdictions.

Tumbling Reels Feature

All payable-defined symbol combinations trigger the Tumbling Reels feature during regular and Free Spins Bonus game play. All winning symbol combinations are evaluated and values are added to the win meter.

All symbols in winning combinations disappear. All symbol positions on each reel are filled as symbols tumble from above, in sequence, to fill all empty spaces. The game screen is re-evaluated for symbols in winning combinations and values are added to the win meter.

The Tumbling Reels feature remains active until no payable-defined symbol combinations are created as a result of new symbols tumbling from above.

Free Spins Bonus

Trigger the Free Spins Bonus when three Bonus symbols appear on a payline on the first 3 reels. Six free spins are awarded.

The bonus reels are made richer by adding 3 additional scatter pay symbols on all reels.

Retrigger the Free Spins Bonus when 3 or more Bonus symbols appear anywhere on the reels:

- 5 Bonus symbols award 6, 8, 10, 12 or 15 additional free spins.
- Any 4 Bonus symbols award 4, 6, 8, or 10 additional free spins.
- Any 3 Bonus symbols award 2, 3, or 4 additional free spins.

Free spins are played at the same line bet as the triggering spin.

The bonus ends and the total bonus win is awarded when 0 free spins remain or after 300 free spins have been played.

Reels used in the Free Spins Bonus are different from the reels used in the base game.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line.

Coinciding line wins on different paylines are added. Scatter wins are multiplied by the total bet.

Bonus symbol appears on reels 1, 2, and 3 in the base game.

Bonus symbol appears on all reels in the Free Spins Bonus.

Wild symbol appears on reels 2, 3, and 4 in the base game only.

Scatter and bonus wins are independent from payline wins and are added to the total amount paid.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the paytable for details. A transaction includes the results of the Free Spins Bonus plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior

losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 94.94%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.
