## FISHING TRAWLER

### FULL GAME RULES

This game is a 5-reel, 3 row video slot. The game has 243 ways to win and will pay-out if there are matching symbols in 3 or more touching reels starting from the leftmost. The maximum payout of this slot machine is 5000x stake. Any wins in excess of this amount will instead be limited to this maximum payout. It is possible that the operator has configured a win cap which differs from the 5000x win cap. If this is the case, it will not be possible to reach the 5000x win cap. Please contact the operator for further information.

### FISHING FEATURE (BASE GAME)

In the base game, a hook will occasionally drop into a random symbol position. If a fish lands in the same position as a hook, you will catch the fish and win its value.

### FISHING FEATURE (BONUS GAME)

The bonus game is activated when three or more scatter symbols are present on the reels. Each scatter symbol will award a number 1-9, and you will win the total value of the three combined as free spins.

During the bonus feature, a hook will be present in every reel. For every successful catch using a hook, the hook's multiplier will increment by +1x. There is no limit to what this multiplier can be, so long as you have spins remaining. Each hook's multiplier is independent of each other.

Feeding Frenzy - Landing a full stack of fish symbols on any reel will enable this feature. For three spins in total the reel will only produce fish symbols, helping build hook multipliers.

Fishing Trawler - Landing this symbol will collect the values of all visible fish on the reels, and multiply that by sum by the combined value of all present hook multipliers.

### BIG BONUS HUNT

When enabled the bonus game becomes harder to activate, but in return each bonus symbol awards a guaranteed maximum number of free spins when the bonus game is triggered. 3 bonus symbols award 27 free spins, 4 bonus symbols award 36 free spins & 5 bonus symbols award 45 free spins!
