### BASE AND BONUS : RACKING UP RICHES FEATURE

When a winning combination is formed, before it is awarded, all symbols not in winning combinations disappear and new symbols appear in all empty symbol positions. If any additional symbols were added to a winning combination or if a new winning combination was formed as a result of the new symbols appearing, this process repeats. Symbols continue to disappear and appear until no additional symbols are added to any winning combination and no new winning combinations are formed.

Winning combinations are awarded only after all disappearing and appearing has ceased.

### BASE : TRANSFORMING SYMBOLS

or

appearing adjacent to a winning combination will transform into the same type of symbol

forming that winning combination and joins that winning combination. If  or  appear adjacent to multiple winning combinations with two or more symbol types, they will transform into the first applicable type

appearing on the following list:

appears with a multiplier value of x2, x3, or x5. A  that transforms and joins a winning combination will apply its multiplier value to the amount won from that winning combination when wins are

awarded. If more than one  transforms and joins a given winning combination, then the sum of their multiplier values will apply to the amount won from that winning combination when wins are awarded.

A  that transforms and joins a winning combination is also collected. 3 or more collected  awards the Free Games Bonus after other wins are awarded.

#### **BASE : MAGNET FEATURE**

When symbols stop disappearing and appearing as a result of the Racking Up Riches feature because no additional symbols were added to any winning combination and no new winning combinations were formed, if there is exactly one winning combination present there is a random chance that the magnet feature will activate.

When the magnet feature activates, all symbols on the screen of the type matching the current winning combination that are not currently part of that winning combination are moved to be part of that winning combination.

If symbols are added to a winning combination as a result of the magnet feature, the Racking Up Riches feature continues, all symbols not in winning combinations disappear, and new symbols appear in all empty symbol positions.

The magnet feature can activate only once per bet.

#### **GENERAL INFO : GENERAL RULES**

This game is played using Clusterbucks evaluation.

Winning combinations are defined as groups of matching symbols that are horizontally or vertically adjacent to one another.

Only the highest paying combination for each group is paid per spin.

Win combination pays are multiplied by the bet multiplier.

All 100 reels are always in play.

Wins are shown in credits unless marked as currency.

Values displayed in the Help Screens have not been pre-multiplied, except where stated.

Wins subject to verification.

Malfunction voids all pays and plays.

---

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress will be completed automatically and the corresponding prize, if any, will be deposited into the account. In the eventuality that a choice is required that may have a bearing on the outcome of the game, the game will be completed based on the choice offered at the top left.

---
