REEL RESPIN FEATURE

During Free Games, anytime the first reel is filled entirely with the same animal symbol, the REEL RESPIN FEATURE is initiated. The symbols on reel one, all WILD symbols and all matching symbols will lock in place.

The reels will respin and lock any symbols appearing that match reel one or a WILD symbol. The reels continue to respin and lock as long as new matching or WILD symbols appear. The respins end and line wins are paid when no new symbols are locked in or all symbol positions show the respective animal or WILD symbols.

GREAT AMERICAN WILDS™

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a casino game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- Within the lobby, you may recognize other players in the same game by a person sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.
- Please choose the amount that you would like to take with you into the game directly after entering it.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.50.
- The maximum bet per round is \$ 50.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Winline

- Great American Wilds™ has 5 reels and 50 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- All prizes are for combinations of a kind, consecutive from left to right on selected lines, starting with the leftmost reel.
- Only the highest win per line is paid.
- Scatter symbols pay regardless of their position.
- Scatter symbols can appear on reels 2, 3 or 4 (counting from left to right, where the leftmost reel is 1, the rightmost reel is 5).
- Wild symbols may only appear on reels 2, 3 and 4.

Bonus Symbols

- The Wild symbol substitutes for all symbols except for Scatter symbols to help complete winning combinations.
- 5 or more Bonus (Scatter) symbols appearing on reels 2, 3 or 4 trigger the Free Games feature (counting from left to right, where the leftmost reel is 1, the rightmost reel is 5).

RTP Range

- The theoretical RTP (return to player) value for this game is 95.17%.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will complete the current round of play.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

GAME FEATURES

Free Games

- 5 or more Bonus symbols scattered on the reels 2, 3 or 4 trigger Free Games. The number of Free Games triggered depends on the number of Bonus symbols in view.
- Free Games are played using the same bet as the spin which triggered them.
- Free Games can be won again during Free Games.
- If the first reel contains a full stack of one kind of animal symbols then the Respin feature is initiated.
- Inside the Respin feature, the symbols on the first reel, all WILD (Wild) symbols and all identical animal symbols will lock in place. Reels will respin and lock any additional matching animal symbols from reel 1 and all WILD symbols. The Respin feature continues as long as new matching symbols (from reel 1) or Wild symbols appear or until all positions are filled by one kind of animal symbols or WILDs.

Epic Xtra Stax Feature

- The "Epic Xtra Stax" feature is randomly triggered.
- Once triggered, stacks of symbols are added to randomly selected reels.
- Epic Xtra Stax can contain all symbols, but only one kind of symbol per reel.

Jackpots

- 2.0 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- The amount you are eligible to win will be shown in the jackpot bank.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- The base win of each jackpot depends on your stake. The base win is 1.500 times your stake for the Eagle Jackpot, 500 times your stake for the Grizzly Jackpot, 200 times your stake for the Bison Jackpot, 75 times your stake for the Mustang Jackpot, and 75 times your stake for the Cougar Jackpot.
- It is not possible for two players to win the jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players will win the reseeded jackpot, plus any new contributions.
- There is no ceiling value for the jackpots.

Gambling

- With current bet it is possible to gamble any win up to 5 times with a maximum stake of \$ 500.00.
- For higher wins or during autoplay, gambling is not possible.
