## Introduction

Anubis Wild is a megaways slot game with up to 117649 ways to win, featuring Free Spins Bonus, Mystery Symbols and Spin Chance.

## How to Play

Spin the reels by pressing the 'SPIN' button to try to achieve 2, 3, 4, 5 or 6 of a kind reel wins. Select the 'CHANGE STAKE' button to increase or decrease the size of the bet.

## Autoplay

Press the 'AUTOPLAY' button to see the options. You must select the number of autoplay games, and your loss limit, before you have the option of starting the autoplay.

'Custom Loss Limit' refers to how much money you wish to lose before the auto play stops. For example, if you have \$50 in your balance, and you choose a \$20 loss limit, the auto play will stop as soon as your balance goes below \$30, even if you have auto play games remaining.

You can either choose to accept the suggested loss limit, which is your stake multiplied by the number of autoplay games you have selected, or manually type in a loss limit by pressing the 'Custom Loss Limit' button.

Choose the 'More settings' option if you wish to stop the autoplay when you win over a certain amount.

Select the 'AUTOPLAY' button during autoplays to stop them.

## Game Rules

All games are played with up to 117649 ways to win.

Only the highest award is paid per winning combination.

Wins on different winning combinations are added.

All wins pay left to right across adjacent reels, starting with the leftmost reel regardless of size.

The award is multiplied by the number of symbols that occur per reel in the winning combination. The Extra Reel adds an extra symbol to reels 2,3,4 and 5.

Payouts are multiplied by the base stake.

Your winnings will be credited to your account immediately.

You will lose your bet amount if you lose the game.

The wild symbols substitute for all symbols except Bonus.

## **Features**

### **Cascade**

During the base game only, every winning symbol is part of a cascade. Cascade symbols are replaced by new symbols coming from above on the reels and from the right on the Extra Reel.

### **Mystery Symbols**

During the base game and bonus game, all mystery symbols change into any one symbol at random, excluding mystery, bonus and wild symbols.

### **Free Spins**

During the base game 3 or more scatters anywhere in view awards the bonus with 12 free spins. Every extra bonus symbol adds +2 Free spins up to a maximum of 82.

During Free Spins all wilds that land in view drop to the bottom of the reel and lock in for the remainder of the feature. When a Wild symbol locks in, it also locks the megaways on that reel.

When multiple wilds lock in they merge, the multiplier on the symbol indicates how many wilds have been locked in. If the player fills a reel with locked wilds they are awarded additional free spins equal to the ways of the reel that was filled.

### **Spin Chance**

Spin Chance is triggered automatically if the credit is reduced below the current price of play yet is still greater than zero. Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.

Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet. The chance of winning a spin is determined by this ratio.
