# RULES

With your current stake, a maximum of \$ 500.00 can be bet while gambling. For higher wins or during autoplay, gambling is not possible. The minimum possible bet is \$ 0.20. The theoretical RTP is 95.26 %.

All game outcomes are independent and randomly determined. The actual RTP is calculated as Total Win / Total Bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The expected RTP can vary widely in either direction for a small number of games due to statistical variance.

Malfunction voids all pays and plays.
