GAME SUMMARY

This is an extra bet video 5-reel product, and it offers an extra feature to the players. The extra bet is always activated.

BASIC GAME RULES

Minimum bet is 45 credits, which includes 1 credit wagered per line (30 credits) plus additional features. All pays are on selected lines only from the left most reel to the right on adjacent reels except scatters. Highest win only on each lit line. Only highest scatter win pays. Wins on different lit lines are added. Scatter wins are added to line wins. All wins are shown in currency. Line wins are multiplied by credits wagered per line. Scatter wins are multiplied by the lines played times the bet per line. Malfunction voids all pays and plays. The prizes are paid in accordance with the payout table available on the game interface. Any game in progress for more than 25 days will be cancelled, and the corresponding bet will be refunded. Player is responsible for ensuring correct credits are registered before play. A player cannot influence the result of a game by stopping the reel spin. The game display does not indicate how close you were to winning, and cannot necessarily be used to determine your chances of winning or losing if you continue to play. Each reel contains a number of adjacent positions with FRAME that are randomly replaced with one of the following symbols: TELESCOPE, BALANCE, CLOCK, BOOK, A, K, Q, J, 10 and 9 before the reel spin is initiated. All positions with FRAME are filled with the same symbol. MAN substitutes for TELESCOPE, BALANCE, CLOCK, BOOK, A, K, Q, J, 10 and 9.
