GENERAL INFO : POWER BET RULES

At any time during the base game the player is allowed to make a Power Bet at a cost of 10X, 20X, or 40X the currently selected total bet to activate the Power Bet feature for 15, 20, or 25 bets, respectively. The player can make this bet by clicking the Power Bet button and then clicking the option of their choice on the confirmation screen.

After making a Power Bet, the subsequent affected bets have an increased chance to win.

At the start of the Power Bet the size of the reels increase by 1 row. After each set of 5 bets during the Power Bet feature the reels increase by an additional row.

Selecting 15 bets will result in the reels increasing to a maximum of 6 rows by the end of the Power Bet feature.

Selecting 20 bets will result in the reels increasing to a maximum of 7 rows by the end of the Power Bet feature.

Selecting 25 bets will result in the reels increasing to a maximum of 8 rows by the end of the Power Bet feature.

When the Power Bet feature completes the reels return to their original size.

Each set of 5 bets during the Power Bet feature are played on different reels.

Placing a bet at a different bet multiplier will forfeit the Power Bet effect on any remaining bets for that Power Bet feature.

The total cost to make a Power Bet as well as play the affected bets is equal to 25X, 40X, or 65X the currently selected total bet for selecting 15, 20, or 25 affected bets, respectively.

A Power Bet cannot be made while a Power Bet is already in effect.
