The game disconnects if you do not take any actions for a specific number of consecutive minutes (this number varies depending on jurisdiction); the session recovery feature will save the game progress so that the next time the game is loaded, you can continue where you left off.

In the event of technical difficulties resulting in a dropped connection to the game server, the game you were playing is saved automatically and will load the next time you establish a connection to the game server. You will not be able to reconnect to the game server for the first 30 seconds after the disconnection.

Note: In case of malfunction all pays and play are voided; any bet that was not yet accepted will be voided, any bet that was unsettled will be refunded.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

Winnings are paid according to the payout table. Notwithstanding the foregoing, should an upper winning limit be specified, said limit will prevail. However, the upper limit may be unreachable depending on the game's bet configurations.

Some features, such as Buy Bonus, Buy Pass, Fortune Spins, Feature Buy, Turbo and Speed Spins, some other configurable features and additional bets may not be available.

2. How to Play

Note: If you do not have enough money to play a game, the bet can be set to the minimum selectable amount through a dialog window informing about this.

All winning ways pay from left to right, beginning with the far-left reel. All way win symbols must appear on consecutive reels. Wins on different ways are all added. Only the highest winning combination on each way is paid. Winnings from Bonus Spins feature are added to the total win.

The auto spin feature does not automatically start Bonus Spins feature - player input is required. (Available only for specific jurisdictions)

3. Special Symbols and Features

3.1. Gong symbols

Any 2 or more horizontally adjacent **Gong** symbols will link together to form a payout.

Each **Gong** symbol appearing in any position on the reels reveals a value of 1 to 99 or an **Arrow** symbol.

The values on the **Gongs** and the frequency of the **Arrows** increase with higher bets.

3.2. Tiger & Dragon symbols

3 x **Tiger** symbols or 3 x **Dragon** symbols will trigger the corresponding **Bonus** round.

Any combination of 5 or more **Tiger & Dragon** symbols will trigger the **Tiger & Dragon Bonus**.

3.3. Tiger Bonus

3 **Tiger** symbols in any position on the reels trigger the **Tiger Bonus**.

If 1 or 2 **Tiger** symbols appear in any position on the reels, the **Tiger Bonus** may be randomly awarded.

When the **Tiger Bonus** is triggered, 3 Spins are awarded.

Each unlocked symbol position is a separate reel during the bonus. Only **Gong** symbols are available during the bonus.

After each spin, **Gong** symbols appearing on one or more unlocked reels reset the number of spins remaining to 3. All **Gong** symbols lock for the remainder of the bonus. If all reels lock, any remaining spins are not played.

When 0 spins remain or all reels lock, each **Gong** symbol appearing in a cluster of 2 or more horizontally adjacent reels reveals a value of 1 to 99 or an **Arrow** symbol.

Only 1 double digit value or 1 **Arrow** symbol may appear in a cluster of 5 **Gong** symbols. Up to 3 **Arrow** symbols or 2 double digit values may appear in a cluster of 4 **Gong** symbols. **Arrow** symbols cannot appear in the leftmost position of a cluster.

Each **Arrow** symbol appearing in a cluster transforms into 0 and increases the leftmost value in the cluster by a value of 1 to 90.

After all transformations are complete, the value displayed in each cluster is won, read as a single value from left to right and multiplied by the Coin Value of 0.01.

The total bonus win is awarded and the **Tiger Bonus** ends.

Different reels are used during the **Tiger Bonus**. Reels are determined at the start of each bonus spin.

3.4. Dragon Bonus

3 **Dragon** symbols in any position on the reels trigger the **Dragon Bonus**.

If 1 or 2 **Dragon** symbols appear in any position on the reels, the **Dragon Bonus** may be randomly awarded.

When the **Dragon Bonus** is triggered, 1 Spin is awarded.

Each unlocked symbol position is a separate reel during the bonus. Only **Gong** symbols are available during the bonus.

After the spin, each **Gong** symbol appearing in a cluster of 2 or more horizontally adjacent reels reveals a value of 1 to 99 or an **Arrow** symbol.

Only 1 double digit value or 1 **Arrow** symbol may appear in a cluster of 5 **Gong** symbols. Up to 3 **Arrow** symbols or 2 double digit values may appear in a cluster of 4 **Gong** symbols. **Arrow** symbols cannot appear in the leftmost position of a cluster.

Each **Arrow** symbol appearing in a cluster transforms into 0 and increases the leftmost value in the cluster by a value of 1 to 90.

After all transformations are complete, the value displayed in each cluster is won, read as a single value from left to right and multiplied by the Coin Value of 0.01.

The total bonus win is awarded and the **Dragon Bonus** ends.

Different reels are used during the **Dragon Bonus**. Reels are determined at the start of each spin.

3.5. Tiger & Dragon Bonus

Any combination of 5 **Tiger** symbols and **Dragon** symbols in any position on the reels triggers the **Tiger & Dragon Bonus**.

If 1 or 2 **Tiger** symbols and 1 or 2 **Dragon** symbols appear in any position on the reels, the **Tiger & Dragon Bonus** may be randomly awarded.

When the **Tiger and Dragon Bonus** is triggered, 3 Spins are awarded.

At the start of the bonus, rows 1 to 3 are unlocked.

Each unlocked symbol position is a separate reel during the bonus. Only **Gong** symbols are available during the bonus.

Collect the number of required **Gong** symbols displayed on a locked row to unlock that row:

- a total of 6 **Gong** symbols in unlocked rows unlocks row 4
- a total of 9 **Gong** symbols in unlocked rows unlocks row 5
- a total of 14 **Gong** symbols in unlocked rows unlocks row 6
- a total of 19 **Gong** symbols in unlocked rows unlocks row 7
- a total of 25 **Gong** symbols in unlocked rows unlocks row 8

If **Gong** symbols appear on one or more unlocked reels in unlocked rows after a spin, the number of spins remaining resets to 3, the number of **Gong** symbols appearing on unlocked reels in unlocked rows are collected in each lock meter, and all symbol positions containing **Gong** symbols in all rows lock for the remainder of the bonus.

If the required number of **Gong** symbols have been collected for a row, that row is unlocked for that spin and the remainder of the bonus.

If a total of 32 **Gong** symbols appear in unlocked rows, the Jackpot is awarded.

When 0 spins remain or all reels lock, each **Gong** symbol appearing in a cluster of 2 or more horizontally adjacent reels reveals a value of 1 to 99 or an **Arrow** symbol. If all reels lock, any remaining spins are not played.

Only 1 double digit value or 1 **Arrow** symbol may appear in a cluster of 5 **Gong** symbols. Up to 3 **Arrow** symbols or 2 double digit values may appear in a cluster of 4 **Gong** symbols. **Arrow** symbols cannot appear in the leftmost position of a cluster.

Each **Arrow** symbol appearing in a cluster transforms into 0 and increases the leftmost value in the cluster by a value of 1 to 90.

After all transformations are complete, the value displayed in each cluster is won, read as a single value from left to right and multiplied by the Coin Value of 0.01.

The total bonus win is awarded and the **Tiger & Dragon Bonus** ends.

Different reels are used during the **Tiger & Dragon Bonus**. Reels are determined at the start of each spin.

3.6. Cash on reels feature

After each base game spin, each **Gong** symbol appearing in any position on the reels reveals a value of 1 to 99 or an **Arrow** symbol.

After the reel spin of any base game that does not award ways wins, the **Mystery Gong** feature may be randomly awarded. If the **Mystery Gong** feature is awarded, 1 or more **Gong** symbols are placed on the reels and reveal a value of 1 to 99 or an **Arrow** symbol. **Gong** symbols will not be placed on symbol positions containing **Gong** symbols, **Dragon** symbols, or **Tiger** symbols.

Only 1 double digit value or 1 **Arrow** symbol may appear in a cluster of 5 **Gong** symbols. Up to 3 **Arrow** symbols or 2 double digit values may appear in a cluster of 4 **Gong** symbols. **Arrow** symbols cannot appear in the leftmost position of a cluster.

Each **Arrow** symbol appearing in a cluster transforms into 0 and increases the leftmost value in the cluster by a value of 1 to 90.

After all transformations are complete, the value displayed in each cluster of 2 or more horizontally adjacent **Gong** symbols is won, read as a single value from left to right and multiplied by the Coin Value of 0.01.

3.7. Mystery Gong

After any base game spin that does not award ways wins, the **Mystery Gong** feature may be randomly awarded. If the **Mystery Gong** feature is awarded, between 1 and 12 gongs are placed on the reels and each one reveals a value of 1 to 99 or an arrow symbol.

Gongs will not be placed on symbol positions containing **Gong** symbols, **Dragon** symbols, or **Tiger** symbols.

The number of small gongs shown in the **Mystery Gong** is purely visual and has no effect on game play.

Whenever you land 5 or more gongs that are not in a horizontal cluster, those gongs are collected and appear on the mystery gong. For every qualifying set of 5 or more, one gong is visually added to the **Mystery Gong**.

Once the **Mystery Gong** has reached the maximum of 8 added gongs, the collection behavior remains the same - 5 or more individual gongs are still collected - but no additional gongs will be visually added to the **Mystery Gong** beyond that point.

3.8. Bonus Buy

Buy the **Bonus** for 50x stake guaranteed entry into **Tiger Bonus**, **Dragon Bonus** or **Tiger & Dragon Bonus**.

Buy the **Bonus** for 100x stake for guaranteed entry into the **Tiger** and **Dragon Bonus**.
